Summary

I'm a data-driven creator with a strong foundation in business and data science, passionate about building applications that solve real business challenges.. Check out my work here.

Experience

Northstar - Impact Analytics AS, a Katapult Group subsidiary   April 2024 – July 2024
Data Analyst Intern   *Oslo, Norway*

- Developed a **data cleaning app** that automates file uploads, cleaning, and organizing investor data **without coding knowledge**.
- Created **sales dashboards** tracking key metrics like **sales, customer engagement**, and issues for better decision-making.
- Built an **admin dashboard app** enabling non-technical users to **manage client information** and modify web app features **without engineering support**.
- Automated **weekly report generation** using **OpenAI**, reducing manual work and providing refined insights on customer engagement, app usage, and feedback.
- Developed a tool to **monitor backend pipelines**, tracking **bugs and performance** to ensure smooth web app operations.
- Implemented an **automated email app** for generating and sending client reports using templates, simplifying the process for non-technical users.

Viet Dragon Securities Corporation   June 2020 – July 2020
Investment Banking Analyst Intern   *Hanoi, Vietnam*

- Conducted **market analysis**, developed **financial models**, and created **presentations** for capital market advisory services.

Education

BI Norwegian Business School   August 2022 - August 2024
MSc in Data Science for Business   *Oslo, Norway*

- Graduated with **Average Grade: 4.6/5**
- Specialized in **Object-Oriented Programming, Data Engineering**, and **Advanced Statistics**.
- Master's Thesis: "Evaluating Portfolio Strategies: A Comparative Study of **Deep Reinforcement Learning and Enhanced Portfolio Optimization**." (**Grade: A**)
- **Named to the Dean's List** for Spring 2024
- **Awarded the BI International Scholarship** for academic excellence

Foreign Trade University (FTU), Vietnam   August 2017 – August 2021
BSc in International Business   *Hanoi, Vietnam*

- **Graduated top of the class** with a GPA of 3.82/4 (**Rank: 1/150**)
- Bachelor's Thesis: "Advanced Customer Feedback Analysis Using Deep Learning" (**Score: 9.5/10**)
- **Valedictorian** of the BSc International Business program
- **Second Prize** in the Mathematics Olympiad at Foreign Trade University
